**FILED ELECTRONICALLY**

Ms. Marlene H. Dortch  
Secretary  
Federal Communications Commission  
445 12th Street, S.W.  
Washington, D.C. 20554

**Re: Notice of Ex Parte Presentation  
GN Docket No. 09-191**

Dear Ms. Dortch:

On July 22, 2011, Lisa Rosenblum, Catherine Bohigian, James Blackley, Scott Weber, and Rick Spanbauer of Cablevision Systems Corporation (“Cablevision”), spoke by telephone with Zachary Katz, Chief Counsel and Senior Legal Advisor to Chairman Genachowski; Douglas Sicker, FCC Chief Technologist; and Walter Johnston, Chief of the Electromagnetic Compatibility Division of the Office of Engineering and Technology to update them on Cablevision’s upgrade of its broadband network.

The Cablevision participants noted that Cablevision is an industry leader in broadband, voice, and video services – offering the nation’s first 100+ Mbps high-speed data service, award-winning consumer broadband service; and the nation’s largest, advanced WiFi network.

Cablevision discussed how the company continues to make substantial investments in leading edge technology to maintain its best-in-class broadband service. With respect to measuring consumer broadband speed, the company noted that the current investment cycle is designed to deliver high throughput and to thwart network contention as usage of Optimum Online continues to increase across a growing base of customers.

Pursuant to section 1.1206(b) of the Commission’s rules, an electronic copy of this letter is being filed electronically with the Office of the Secretary and served electronically on the Commission participant in the telephone conversation.

Mintz, Levin, Cohn, Ferris, Glovsky and Popeo, P.C.

Ms. Marlene H. Dortch
